THE RETREAT

An Immersive Journey Through Sound, Ceremony & Nature

Living Altar is a five-day immersion that weaves together ancient practices, music, movement, and ceremony to create the conditions for meaningful transformation. Designed to help you slow down, listen deeply, and reconnect with the wisdom of your own heart.

At the heart of the retreat is a dedicated evening of deep inner exploration, gathered around a ceremonial altar — a space for prayer, music, contemplation, and remembrance, followed by a full day of integration, rest, and embodied reflection.

The land itself is part of the medicine. Nestled in the hills of southern Portugal, Casa Prema is a sanctuary that was built over years of intention — a place where the natural world holds its own ceremony. The olive trees, the fire, the cold spring water, the silence at dusk: all of it becomes part of the practice.

WHO IS THIS FOR?

For those who feel the need to step away from the noise, slow down, and reconnect with themselves. Whether you're feeling overwhelmed, disconnected, at a crossroads, or simply longing for something more meaningful, this space was created for you.

WHY WE CREATED THIS

Because some of life's most important conversations cannot happen in the rush of everyday life. Living Altar was created as a space to pause, gather, remember what matters, and return home with greater clarity and presence.

THE OFFERING

Four Pillars One Journey

SOUND

Live music, sound healing, mantra, and voice — sound as the bridge between the body and the unseen.

RITUAL

Ancient practices drawn from indigenous traditions — cacao, hapé, water, fire, altar — held with care and intention.

JOURNEY

A dedicated inner ceremony night: the heart of the retreat, where the deepest listening happens.

INTEGRATION

Rest, sharing circles, somatic movement, and time on the land — space to weave the experience back into your life.

PRACTICES INCLUDED

Cacao Ceremony · Ecstatic Dance · Inner Journey Ceremony · Sound Healing · Hapé Ceremony · Breathwork Journey · Voice Activation & Mantra Singing · Water Cleansing Ritual · Sharing Circles · Animal Flow & Yoga · Somatic Movement Practice · Altar Building · Natural Pool Cold Plunge · Sunrise Gazing & Meditation · Nature Meditation & Barefoot Walks · Live Jams Around the Fire · Integration Circles · Shared Sacred Organic Meals

THE PROGRAM

Five Days One Unfolding

Each day has its own rhythm and focus. The structure is intentional but not rigid — space is held for rest, spontaneity, and what each person needs. What follows is a guide, not a schedule.

DAY 1
13 AUG

Arrival & Opening

WELCOME DINNER · OPENING CIRCLE · FIRE GATHERING

Arrive from 4pm and settle into your space. The evening opens with a shared meal around the table before the group gathers for the opening circle — a moment to meet the land, meet each other, and set an intention for the five days. A fire closes the night.

DAY 2
14 AUG

Ritual, Body & Movement

MORNING PRACTICE · WATER RITUAL · CACAO & ECSTATIC DANCE

The body leads the way. A morning practice opens the senses — breath, movement, sound — before a slow afternoon including an herbal cleansing and water ritual on the land. As night falls, cacao is shared ceremonially, and live music carries everyone into ecstatic dance.

DAY 3
15 AUG

Ceremony & Sacred Journey

MORNING PRACTICE · NATURE WALK & ALTAR BUILDING · MAIN CEREMONY

The ceremonial heart of the retreat. After a morning practice, the afternoon takes everyone out onto the land to gather flowers, herbs, and objects for a shared altar built together through meditation and offering. When night falls, we enter the main ceremony — the inner journey. Light nourishment follows to close and ground the space.

DAY 4
16 AUG

Sound & Grounding Rituals

MORNING PRACTICE · BREATHWORK & COLD PLUNGE · SOUND HEALING · HAPÉ

A day to settle what moved through you. After morning practice, the afternoon brings a breathwork journey followed by a cold plunge in the natural pool — an activation for the nervous system. Sound healing in the dome follows, before the evening closes with a hapé ceremony for deep grounding and clarity.

DAY 5
17 AUG

Integration & Closing

MORNING PRACTICE · SHARING CIRCLE · CLOSING CEREMONY

One final morning practice together before the circle closes. Time is given to reflect, speak, and honour what the five days held. The closing ceremony marks the threshold back into ordinary life — with new eyes, a clearer heart, and the thread of connection woven between everyone who shared this container. Departure by 2pm.

THE FACILITATORS

Guided by Experience Held with Heart

CEREMONIALIST • VOICE ARTIST

Zei

A musician, ceremonial space holder and student of indigenous wisdom. Rooted in North African indigenous tradition and Sufi practice, Zei has also sat with wisdom keepers across the Amazon, South America and the East, learning their songs, their prayers, their way of connection. With her voice, she carries that blended wisdom into sound and sacred ceremonial space. She curates conscious events rooted in community, unity and the belief that people heal better together.

CEREMONIALIST • MUSICIAN

Nael

A multi-instrumental musician and ceremonial space holder, Nael has been playing since a very young age, shaped by deep immersion in indigenous Amazonian ceremony, Eastern music and Sufi tradition. His technical mastery of sound and instruments is matched only by the heart behind it. Whether performing solo or within a circle, he holds space the way he plays — with precision, warmth and an unwavering commitment to community.

SOUND HEALER • SPACE HOST

Renato

A healer, sound practitioner and keeper of the land. Renato has walked the path of inner awakening for over 25 years, through meditation, energy healing, yoga and sacred philosophy. He founded a community rooted in love, relocated to Portugal, and built Casa Prema from the ground up — a sanctuary born from decades of practice and devotion. He holds this space with the quiet authority of someone who has done the work, and built it for others to do the same.

MUSICIAN • SOUND ALCHEMIST

Art

An artist in the truest sense, always moving, always seeking. He has spent years chasing the world's most rare and exotic instruments, sitting with Eastern masters to learn their secrets, and weaving them into sound that is entirely his own. He teaches instruments including the handpan, and brings a devotional depth to everything he plays. Beyond music, his practice spans movement, breathwork and embodiment — a full-spectrum presence on and off the stage.
